

NJTA Maintenance Facilities Improvement Program, OPS No. A3428, Program Management, New Jersey Turnpike and Garden State Parkway

Various Locations, NJ

Naik Consulting Group, PC (**NAIK**) is contracted to provide utility oversight for the five design contracts maintenance facilities improvement program. The five contracts are as follows:

- Turnpike North, five (5) maintenance districts (TMD-4, 6, 7, 9, and 10),
- Turnpike South, four (4) maintenance districts (TMD-1, 2, 3 and 5),
- Parkway North, four (4) maintenance districts (PMD-5, 6, 7 & 8),
- Parkway South, five (5) maintenance districts (PMD 1, 2, 3, 4 and Sub District Bass River).
- Two Maintenance Districts, Central Inventory, District 5-A and Backup TMC in Cranbury, NJ

(**NAIK**) is responsible for overseeing the utility efforts of the five contracts under the program management team for the upgrades of the 20 maintenance facilities for both the New Jersey Turnpike and Garden State Parkway. Responsibilities include attending Program Management meetings, review of phase submissions, coordinating the overall utility process for this program and creating utility program wide templates for the initial contact letters, minutes of meetings, and utility contact list/tracking form. Also responsible for the coordination and distribution of initial contact letter with Plans to the various utility companies, attending and scheduling a utility kick-off meeting with NJTA and the design consultants as well as scheduling meetings on behalf of the NJTA with the design consultants.
